# ABOUT US

The Green Yard is a premier provider of indoor Plantscaping solutions since 2016, offering tailored services for corporate offices, co-working spaces, hotels, restaurants, and shopping malls. With a passion for greenery and sustainable living, we specialize in creating aesthetically pleasing indoor environments that not only enhance the beauty of spaces but also promote well-being and productivity.

## MISSION

To transform indoor spaces into vibrant, green environments that inspire nature, rejuvenate, and spread happiness.

## VISION

To be the leading provider of indoor greenery solutions, fostering sustainability and environmental consciousness in every project.

# Founder's Profile

**The Green Yard was founded in Bangalore by Venkat and Sakthi in 2016, a passionate couple who share a lifelong passion for plants, nature, and sustainable living. Both come from agricultural families, where they grew up surrounded by greenery and learned the value of nurturing the earth. Their early experiences shaped a deep appreciation for gardening, plant care, and the harmony that plants bring into everyday life.**

**With this shared background and a vision to bring nature closer to urban spaces, Venkat and Sakthi created The Green Yard—a company dedicated to transforming interiors through thoughtful indoor Plantscaping. Their combined strengths, creativity, and hands-on knowledge allow them to design green spaces that are not only beautiful but also healthy, functional, and easy to maintain.**

**Guided by passion, teamwork, and the belief that plants can enhance the quality of life, Venkat and Sakthi are committed to creating refreshing and inspiring indoor environments one space at a time.**

# Why choose plants for your office or commercial space?

1. **Boost Productivity and Creativity:** Studies show that incorporating greenery into workspaces can improve focus, creativity, and employee productivity.
2. **Enhance Air Quality:** Indoor plants naturally purify the air by reducing toxins and increasing oxygen levels, creating a healthier work environment.
3. **Aesthetic Appeal:** A beautifully designed green space adds a touch of elegance and professionalism, making your office more welcoming for employees and clients.
4. **Reduce Stress:** The presence of plants helps reduce stress levels and promotes a sense of calm and relaxation, contributing to a happier workforce.
